Volume 19

	Page		Page
Alpern, Joshua	45	Lewis, Margaret Reed	1, 323
Bachem, Erica	57	Lowrance, E. W.	247
Bahner, Carl Tabb	1	Lowry, Joan L.	215
Bates, Aubrey L.	1, 323	Lynn, W. Gardner	263
Bois, Pierre	107	Manner, Harold Wallace	169
Bonham, Kelshaw	9	Meredith, Howard V.	89
Cerecedo, Leopold R.	31	Meyer, Julia	57
Chaudhuri, R. Dutta	257	Miller, Elizabeth Eshelman	187
Dreizen, Samuel	307	Olson, Willard	39, 245
Flickinger, R. A.	297	Parker, George S.	307
Forbes, Gilbert B.	75	Peadon, Annie M.	263
Freed, Jerome J.	331	Rodriguez, Nestor	31
Ganschow, Roger E.	165	Sarkar, H. L.	257
Hard, Walter L.	151	Schjeide, O. A.	297
Hartung, E. W.	19	Schrank, A. R.	287
Henderson, James H. M.	138	Schultze, A. B.	141
Hogue, M. J.	137	Selye, Hans	107
Hughes, Boland	1, 323	Snodgrasse, Richard M.	307
Hunter, James E.	177	Spies, Tom D.	307
Kapoor, B. G.	257	Sreebny, Leo M.	57
Katsh, Seymour	45	Stekol, J. A.	331
Kidwell, James F.	177	Wade, Marven A.	177
King, R. C.	215	Weinmann, J. P.	57
Kosarick, Everett	45	Wilson, Louise P.	215
Latimer, Homer B.	207	Winter, John M.	151
Levi, E.	297	Zwilling, Edgar	333

Subject Index

	Page
Accessory reproductive structures, rat	45
effect of biotin deficiency on	45
Adenine sulfate	19
effect on tumor aggregations in *Drosophila*	19
effect on tumor incidence	25
Adrenal cortical hypertrophy	54
Adrenalectomized rats	107
Adrenal-weight body-weight ratio in rats	51
elevation in inanition groups	51
An Introduction to Cell and Tissue culture (Book review)	137
Antibody production by rat sarcoma extracts	190
Antimetabolites and Cancer (Book review)	331
Anti-tumor activity of styryl quinoline compounds	1, 323
Anuran embryology	
effect of thyroid inhibitors on	267
recovery from treatment with thyroid inhibitors	273
role of thyroid gland in	263
Arithmetic means for size and form of lower limb	91
Ash, total body	75
Avena coleoptiles, growth of	288
Avena sativa	287
Biotin deficiency,	
effect on body and organ growth of rat	45, 50
influence on reproductive tissues of rat	51, 54

Page

Blood
changes in body weight 141, 144
changes in dairy calves 141
factors, multiple correlation of 148
glutathione level 177
hemaglobin content 142, 146, 147
sulfhydryl content 142, 146, 147
Blood of tumor-bearing rats 152
Brookhaven Symposia in Biology no. 6. Abnormal and Pathological Plant Growth (Book review) 138

Carbinol compounds
effect on rat tumors 328
Castration
effect on submaxillary gland of rat 57
Catfish
leiomyoma in 257
Changes in size of organs of tumor-bearing rats 31
Chemical constitution of human fetus 75
of young rat fetus 75
Chemical growth in five mammalian species 85
Chemical heterogony in man and animals 75
Coleoptiles of *Avena* 288
geotropic curvature, effect of irradiation on 294
growth of 288
length 289
effect of gamma irradiation on 292
tropic curvature, effect of irradiation on 292
Chloride, total body 75, 77, 78, 79
Comparison of lower extremity size 93
Corn seedlings,
growth of 151
root weights of 154
in blood of tumor-bearing rats 155
Cortisol 107
acetate 109
effect on castrated rats 128–133
Cortisone 107
acetate 169
effect on wound healing 174

Desoxycorticosterone acetate 107
effect on castrated rats 119–128
Development of bones of human hand 307
sequential 307
Diethylstilbestrol 165
effect on pelvis of young mouse 165
effect on pubic symphysis 166
toxicity of 168
4-Dimethylaminoazobenzene 31, 32
Dog,
prenatal growth of 207
Drosophila melanogaster 19, 23, 28
tumor strains 215
viability of 221
Drosophila virilis 25, 28

Egg mass of snail 10
Egg retention in *Drosophila* 234
Eleutherodactylus martinicensis 263
Eosinophil count in calves' blood 142, 146, 147

Page

Epidermal mitotic index following cortisone treatment 171
Epiphyses of human hand 308
supernumerary 308
pseudo-epiphysis 310–314
Erythrocyte count in calves' bloods 142, 146, 147

Fibrosarcoma, transplanted 36
Frog eggs,
proteins of 297

Gamma irradiation of *Avena* seedlings 287
Glutathione level in blood 177
relation to hemoglobin count 181
relation to heart girth 182
relation to rate and economy of gain 182
Granuloma-pouch in rat 110
Growth,
of corn seedlings 151
response to normal and cancerous rat blood 151
of dog testes, prenatal 207
of *Drosophila* larvae 224
comparative growth indices 227
pseudotumorous 225, 226
time table of larval and pupal development 229
wild type 225, 226
of human hand 307-322
of mouse pelvis 165
of North American white schoolboys 89
of organs in rat 45
of rabbit femur 247
roentgenographic records of 247
somatic, effect of hormones on 132
Growth and body size in beef cattle 177
Growth and glutathione levels 177
Growth characteristics of *Avena* seedlings 287
effect of irradiation on 287
Growth equations 84
Growth hormone 107
Growth stimulation of seedlings grown in cancer blood 164
Glucocorticoids 107

Hand, ossifications centers in 307
anomalies, sequential development of 312, 313
Heliosoma subcrenatum 9
Hematocrit value in calves' bloods 142, 146, 147
Hemoglobin content of calves' bloods 142, 147
Hereditary control of pseudotumor incidence in *Drosophila* 236
Histological studies of biotin-deficient rats 51, 53

Incidence of normal phenotype among *Drosophilas* of different genotype . . 237
Increase in root weights of seedlings grown in cancer blood 157–159
Indoleacetic acid
effect on tumor aggregations in *Drosophila* 19
effect of different concentrations on tumor incidence 23
Inflammation 110
effect of hormones on 132
Inhibitory effect of cortisone acetate on wound healing 175
Innominate bones of mouse, width of 168

Jensen sarcoma 152

Page

Leiomyoma 257
Limb growth in American schoolboys 89
Lipids in frog egg 303
Liver,
of rats fed carcinogenic diets 33
Livetin, ... 301
percentage of lipid in 303
Lower limb growth, individual pattern of 99–103
Lung hypertrophy in tumor-bearing rats 36
Lymphatic tissue development,
effect of hormones on 132
Lymphoma, rat 2
extracts of 193

Measurement of body composition by isotopic dilution method . . . 75
Media for *Drosophila* 20, 21
Melanotic tumors of *Drosophila* 19
Mesenchymal tumor of catfish 257
Metacarpal and phalangeal anomalies in human hand 321
sequential alteration in 321
association with malnutrition and bone disease 321
A Methodological, Psychiatric and Statistical Study of a Large Swedish Rural Population (Book review) 245
Methylcholanthrene-induced tumor in rat 36
Mineralcorticoid hormones 107
Mitosis and cell migration in wound healing 173
effect of cortisone acetate on 173
Mitotic activity in regenerating forelimbs of *Triturus* 169
changes following cortisone acetate treatment 170
Morphologic variables in life cycle of human male 104
Mouse pelvis, growth of 165, 167
Multiple correlation of blood factors 147
Mystus seenghala 257

Native neoplasms in inbred animals 1
Nitrogen,
dialyzable and non-dialyzable in sarcoma extracts 192
Nitrogen analysis of rat sarcoma extracts 191
Nutrition of *Drosophila* 240
effect on production of pseudotumors 219

Organ size, rat 33
effect of carcinogenic diets on 33
effect of Walker carcinoma on 35
Organ weights in biotin-deficient rats 55
Ossification,
anomalous metacarpal and phalangeal 307
Ossification centers in human hand 307
Ovarectomized rats 107

Perspectives and Horizons in Microbiology (Book review) 331
Postnatal changes in submaxillary glands of rats 57
age curves 69–71
Potassium, total body 75, 80, 82
Prehatching developmental rate of snail eggs 12
Prenatal growth of testes in the dog 207
weight growth and percentage weight 208-210
Problems of Infancy and Childhood (Book review) 39
Protease activity of submaxillary gland at different ages 64
Protein composition of alcoholic extracts of rat sarcoma 187
of alcoholic extracts of normal muscle 187

Page

Proteins of frogs eggs 297
physical and chemical studies 297
Proteolytic activity, site of 65
relation to increase in cell granules 66
granule capacity and duct mass 67, 68
Pseudotumors, *Drosophila* 216, 240
effect of nutrition on incidence of 219
incidence in reciprocal backcrosses 238
incidence on different media 219, 220
hereditary control of 236
third chromosome in relation to 241
Pubic symphysis, growth of 166

Rabbit femur,
growth of 247
mean lengths and diameters 249, 250
relation of length, femur diameter and calcaneous length 254
Rana pipiens 297
Rat,
adrenalectomized 107
body and organ growth 45
effect of castration on submaxillary glands 57
ovarectomized 107
submaxillary glands 57
tumors of 31
Rat carcinoma 31
Rat lymphoma 2
extract fraction 193
Rat neoplasms, transplantable 3
Rat sarcoma 187
effect of styryl quinoline compounds on 323
effect of carbinol compound on 328
Rat sarcoma extracts 188, 193
fractionation of 189
nitrogen determinations on 189
ninhydrin determinations 189
precipitin reactions of rabbits to 196, 200
Rate of increase in weight of prenatal dog testes 212
Regression of rat sarcoma 2
Relation of blood glutathione to growth and body size 177
Relationship of host to neoplasm 2
Riboflavin,
effect on rats fed 4-dimethylaminoazobenzene 31, 33
Roentgenographic record of growth of rabbit femur 247
Root length of *Avena* 290
effect of gamma irradiation on 290, 291
Root weights of corn seedlings grown in cancer blood 157–159
relation to hemoglobin concentration 161

Sarcoma, rat 187
effect of quinoline compounds on 323
effect of anti-lymphoma compounds on 326
Sex differences in submaxillary glands of rats 69
Size and form changes in limbs of North American schoolboys 89
annual differences 95
correlation 97–99
standard deviations and selected percentiles 95
Snail eggs, development of 9–15
effect of X-rays on 14, 16, 17

Page

Snails, embryonic stages of 9–11
Sodium, total body 75, 76, 78
versus body weight 77
Somatotrophic hormone (STH) 107
effect on castrated rats 113–118
interaction with corticoids 109
Spleen of rats fed carcinogenic diets 33
Splenomegaly in tumor-bearing rats 36
Styryl pyridine compounds 1, 4
effect on tumor growth 323, 329
Submaxillary gland, rat 57
growth of 59
morphology of 57, 58, 60–63
proteolytic activity in 57, 63, 65
sex differences in 69, 72

Third chromosome of *Drosophila* 240
in relation to production of pseudotumors 241
Thymolytic effect of increased adrenal activity in rats 51
Thyroid gland 263
role in amphibian development 263
Thyroid inhibitors
effect on anuran development 267, 273
Thyroxin,
effect on anuran development 277
Triturus viridescens 169
Tumor aggregations in *Drosophila* 19
effect of indoleacetic acid and adenine on 19
Tumor-bearing rats
changes in organ size 31
Tumor strains in *Drosophila* 215
phenotypic and genotypic characteristics 215
pseudotumorous strain 216
egg size in 233
larval growth rate 224
fecundity 229–232
egg retention 234
Tumors,
Drosophila 19, 20
effect of adenine sulfate on 25
effect of indoleacetic acid on 19, 20
effect of styryl compounds on 1, 323
leiomyoma, catfish 257
mesenchymal 257
of rat 31
carcinogen-induced 36
carcinoma 31
Jensen sarcoma 152
lymphoma 193, 326
regression of 2
native 1, 187, 323
transplantable 3
Walker carcinoma 31, 34

Variability of lower limb indexes 94
Viability of *Drosophila* tumor strains 221
Vitamin-hormonal relationship integrated with enzymatic function 55
Vitellin 300, 301, 302
percentage of lipid in 303

Page

Vitellin and livetin preparation of yolk proteins 298
incubation supernatant 298
ratio of livetin to vitellin 299

Walker carcinoma 256 . . . . . 31, 34, 152
Water, total body 75, 81, 83
Weight of body in rats fed biotin-deficient diets 47
Weight gain as related to food intake in rats 46, 47
Wound healing 169

X-rays,
effect on early cleavage stages of snail 9

Yolk proteins of frog eggs 297
